RE: No Surprise Act-Uninsured/Self Pay Pricing
Date: January 25, 2022

Dear Valued Client:

Beginning January 1, 2022, health care providers and facilities must provide a good faith estimate of expected charges to uninsured consumers, or to insured consumers if they don't plan to have their health plan help cover the costs (self-paying individuals). You are receiving this letter because your facility or office sends specimens to Delta Pathology that will need to be included in your good faith estimate.

We have put together a comprehensive list of our services to include Delta Pathology's uninsured/self-pay pricing for your good faith estimate. Pricing may be subject to change due the complexity of the specimen after diagnostic exam and/or additional testing required for diagnostic purposes. We have included the price schedule by specimen as well as by procedure to provide the utmost detailed information possible. Please make sure to include all procedures and tests, that will be requested for Delta Pathology to perform, in your good faith estimate.

If you have any questions please contact me by email at alicia.mccall@pathologyresource.net or by phone at 318-841-9522.

Sincerely,

Alicia McCall
